

May 2023

Dear Chapter Leader:

It's the time of year to honor your school's graduating students who have distinguished themselves by outstanding achievement in the various subject areas.

The UFT's officers and the chairpersons of the Professional Committees have a long tradition of supporting and rewarding both academic excellence and extraordinary efforts to achieve.

The UFT is pleased to join you in this time of recognition by supplying the award certificates. They should be presented to the most deserving students in each subject area.

We are confident that you and your colleagues will use your professional judgment in setting the selection criteria for those students being honored.

Our process has changed, and this year we will not be sending printed certificates to the UFT borough offices. Please access the certificates electronically via the link embedded in the Chapter Leader Update. If you have any questions, please contact the UFT Professional Committees' office at 212-598-7772.

In solidarity,

George Altomare, Director
UFT Professional Committees

Michael Mulgrew, President
United Federation of Teachers
